Thank you for buying Art Studio VR!

Art Studio VR is a comprehensive toolkit designed for Unity, perfect for creating modern, realistic, and highly customizable art studios. Ideal for developers looking to add a creative and authentic touch to their virtual reality projects, video games, or interactive simulations.

Key Features:
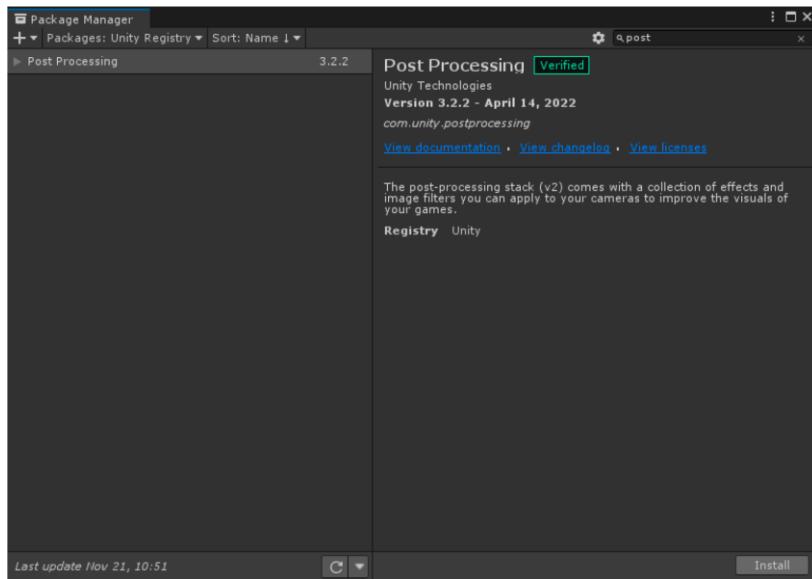

- **Detailed models:** Includes easels, canvases (blank and painted), brushes, color palettes, desks, stools, shelves with art materials, studio lamps, and more.
- **Professional optimization:** Designed with PBR textures for high-quality visuals and efficient performance.
- **Modular elements:** Easy-to-use components for building custom environments tailored to various styles and needs.
- **Immersive atmosphere:** Lighting setups and decorations recreate the inspiring ambiance of an authentic art studio.
- **Extended compatibility:** Fully compatible with URP, HDRP, and Unity's Standard Render Pipeline.

Art Studio VR is ideal for educational, architectural, simulation, and entertainment projects. Take your creative ideas to the next level with this versatile and complete package.
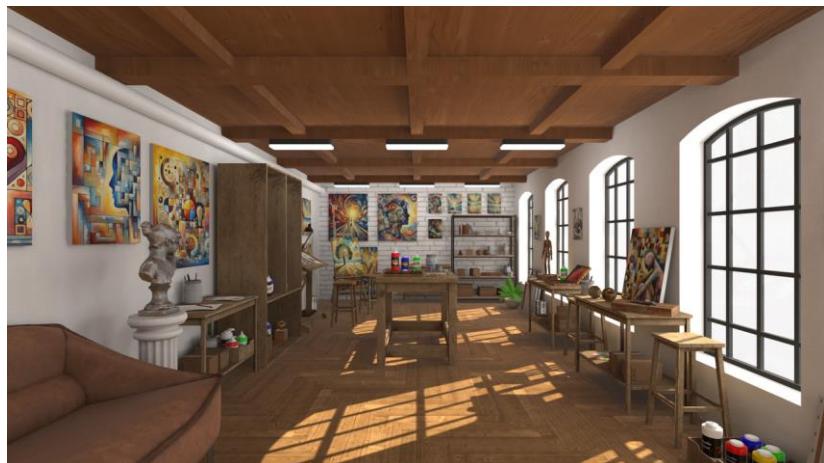

Built-in render pipeline:
To begin, we need to install the post-processing package. Let's click on Window > Package Manager. The Package Manager window will pop up.
